

PD400X XLR/USB DYNAMIC MICROPHONE

PD400X is a multifunctional dual-mode XLR/USB dynamic microphone specially designed for online podcasting as well as recording, streaming and singing.

It offers great convenience to users who need to use it on a PC/Mac or on a traditional audio equipment.

The dual outputs design saves investment in gears for podcasters, streamers and other contents creators who prefer flexible setups.

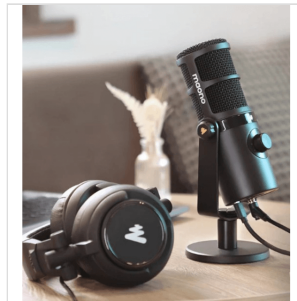

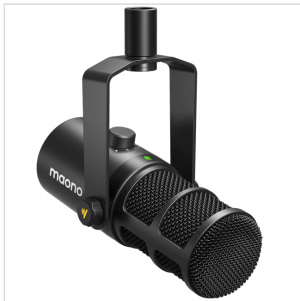

PD400X has a classic broadcast microphone look and feel, but it is packed with state-of-the-art audio technologies that supercharge the content-creating experiences.

The unique 3-in-1 smart knob offers controls on microphone gain, headphone volume and monitor mix, delivering a simple and intuitive user experience.

PD400X microphone is widely compatible with Windows, macOS, iOS and Android OS, and you can record on computers, mobile phones and tablets.

More advanced audio processing features are available in PC/Mac "Maono Link" software.

With outstanding features and pro-level performance, the PD400X dynamic microphone is a great solution for taking your audio projects to the next level.

PD400X XLR/USB DYNAMIC MICROPHONE

HIGHLIGHTS

CARDIOID PATTERN

PD400X is equipped with a Cardioid pattern with excellent off-axis noise suppression performance.

3-IN-1 MULTI-FUNCTION COMPOUND KNOB

The PD400x microphone features a 3-in-1 knob with which you can adjust the microphone gain, headphone volume and monitor ratio. By pressing this knob it is possible to change the regulation mode.

PD400X XLR/USB DYNAMIC MICROPHONE

XLR / USB OUTPUT

The PD400X microphone's dual USB and XLR outputs allow for digital or analog recording.

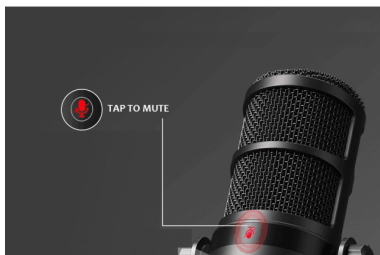

COMPATIBILITY WITH PC/MAC AND DEDICATED "MAONO LINK" SOFTWARE

The PD400X microphone is widely compatible with Windows, macOS, iOS and Android OS and therefore it can be recorded on computers, mobile phones and tablets using more advanced audio processing features provided by the dedicated software "Maono Link" for PC/Mac such as adjustments for microphone gain, headphone volume, microphone tone, equalizer, limiter and compressor.

ONE TOUCH FOR MUTE FUNCTION

The Mute function is intuitive and easy to reach with a simple touch of fingertip availability.
