

NMT-1 MULTI TESTER + PEDAL TUNER

The Swiss Army knife for musicians is here: cable tester, current and voltage meter for pedals, tuner in one compact & lightweight tool, powered by a built-in rechargeable battery.

This incredibly portable device is the perfect companion for players in daily use and stage performances.

NMT-1 MULTI TESTER + PEDAL TUNER

HIGHLIGHTS

PATCH CABLE & DC CABLE TESTER

The NMT-1 can be used for both ¼" TS & TRS audio cables and 2.1mm DC power cables. With NMT-1, you can effortlessly test your solderless patch cables for correct connections and shorts.

PEDAL CURRENT & VOLTAGE METER

No more confused by the inaccurate current information. Plug your pedal into NMT-1 and you'll know how much current it really needs and set your pedal accordingly.

NMT-1

MULTI TESTER + PEDAL TUNER

CLEAR DISPLAY

Concise and clear display of cable types and connection condition.

CHROMATIC TUNER

As a bonus function, the NMT-1 can be used as a Chromatic tuner. No need to carry an extra tuner by your side, the NMT-1 can solve everything.
