

HDJ-X5BT-K OVER-EAR DJ HEADPHONES WITH BLUETOOTH® WIRELESS TECHNOLOGY (BLACK)

We've upgraded our affordable HDJ-X5 DJ headphones, adding Bluetooth® wireless technology to create the HDJ-X5BT. The new over-ear DJ headphones are ideal for DJing in the club and monitoring tracks on the move. Now, more than ever, DJs need equipment that's flexible and helps them to practise, prepare and perform wherever they go. Thanks to their Bluetooth connectivity the HDJ-X5BT headphones make it easy to monitor music in any situation – whether you're at home or on the move – and when you connect the included cable you can use them for comfortable DJing in the club. Whether you go wireless or not, the HDJ-X5BT headphones offer the same outstanding audio quality, durability and functionality as the original HDJ-X5 model.

HDJ-X5BT-K OVER-EAR DJ HEADPHONES WITH BLUETOOTH® WIRELESS TECHNOLOGY (BLACK)

PRODUCT DETAILS

KEY FEATURES

Wireless technology for monitoring music anywhere you go. With easy set-up, you can simply power up the HDJ-X5BT headphones and pair them with your Bluetooth device – such as a smartphone or PC/Mac – then start monitoring tracks.

Well-balanced, dynamic sound. High-resolution, well-balanced tuning and bass reflex chambers in the housings allow the airflow to deliver an excellent bass response and sound insulation.

The high-quality Qualcomm® aptX™ audio codec is supported as well as AAC and SBC for high-quality sound, even when listening wirelessly.

Lasting durability

The HDJ-X5BT headphones are comfortable to use no matter how you wear them, thanks to the housing design, swivel mechanism and flexible headband inherited from the predecessors in the HDJ-X series.

Comfortable ear pads

Foldable, easy-to-carry design

Original unique sounds for each beep when connecting via Bluetooth, powering and pairing
