CUSTOM MICHAEL LANDAU CUNIFE WIDE RANGE HUMBUCKER BRIDGE PICKUP

The custom-voiced Michael Landau Wide-Range CuNiFe humbucker bridge and neck pickups have a slightly hotter output while still retaining the "hi-fi" clarity that Wide Range humbuckers are known for. Both pickups are custom wound to the artists exacting specifications. Authentic CuNiFe®-magnet-powered wide range humbuckers deliver rich bell-like tone with full bass and clear treble. A chrome cover with a "3 3" exposed pole piece design and Fender logo completes the vintage-'70s vibe.
