

DJC-WECAi30

DJ CONTROLLER CABLE FOR DDJ-WEGO3

The DJC-WeCAi30 controller cable enables an iPad® (3rd gen), iPad 2, or an iPhone® 4S to connect to a DDJ-WeGO3. The DJC-WeCAi30 cable connection transforms a compatible 30-pin iOS device loaded with Algoriddim® Inc.'s djay 2 or vjay apps (available for purchase in the App Store) into a music source and control window for the DDJ-WeGO3. The DJC-WeCAi30 cable extends up to 1.6 feet from the 13-pin port on the DDJ-WeGO3 to the 30-pin connection port on an iPad (3rd gen), iPad 2, or iPhone 4S. When the DDJ-WeGO3 is powered by the included AC adapter, the iOS device will be charged so battery power never runs out while in use.

PRODUCT DETAILS
