

CAR-MT-4

CARBON TONES MIXED TIN OF 4 GUITAR PICKS

Carbon Tones are designed around the Classic 351 shape. We use a CNC Water Jet cutter to cut out our unique shape to exact tolerances. They are then hand polished around the edges to ensure they are perfectly smooth. Carbon Fibre is hard and dense and as such has clean crisp bright tones.

PRODUCT DETAILS

KEY FEATURES

Material: Aerospace quality Carbon Fibre with a high gloss finish on both sides
