

LCT240PRO

SINGLE-PATTERN MICROPHONE WITH HIGH-PERFORMANCE CAPSULE FOR ALL APPLICATIONS

The LCT 240 PRO is an extremely versatile cardioid condenser microphone designed for everyone who's eager to take the next step in professional recording. Equipped with a high-performance condenser capsule it enables clean, modern, and detailed recordings. To accomplish an intimate and direct sound, especially on vocals, we have added a boost on the airy frequencies. The sturdy, compact and streamlined housing comes in chilly white and classic black. Be prepared for fantastic results on vocals, acoustic instruments, amplifiers, drums, piano, ... - at home, in the studio and on stage - fast and uncomplicated

LCT240PRO

PRODUCT DETAILS

KEY FEATURES

Fantastic sound - on all sound sources

Handles even the highest sound pressure levels

What's in the box: use the leatherette bag to protect your mic from dust and scratches. The windshield comes in handy for outdoor gigs, vocal recordings, or simply to protect the capsule from moisture.
