## **355 SHAPE, SHELL, MEDIUM (12)**

---

Experience the classic feel of Fender no matter what guitar or bass you play. Fender picks provide comfort and high-performance flexibility for every performer, with a variety of sizes, shapes and thicknesses to suit the playing styles and preferences of every guitarist.

Celluloid is a premier pick material and the cornerstone of the Fender pick collection for decades. Celluloid picks give the traditional feel and a warm, round musical tone. Fender's large triangle pick, the 355, provides three sides for picking and the largest body of any Fender® pick. If you want a large pick to hold on to, this is the one for you.
